Introduction

NOVI Health brand promise

NOVI's Mission:

NOVI Health empowers people to extend their healthspan by combining trusted medical expertise, personalized care, and technology-enabled continuity.

We don't just treat symptoms or hand you data, we close the gap between knowing and doing, helping you achieve lasting transformation.

A woman with dark hair, wearing a bright yellow long-sleeved shirt, is smiling and looking off to the side. She is holding a pair of black-rimmed glasses in her right hand. The background is softly blurred, showing indoor plants and light coming from a window. The entire image is framed by a thick yellow border.

NOVI's vision:

**Empowering

Color versions

The wordmark is available in 4 color variations:

1. NOVI Yellow on White: Primary version for white or light backgrounds.
2. NOVI Yellow on Black: For dark backgrounds where strong contrast is required.
3. NOVI Black on White: A neutral alternative for white or light backgrounds when a more minimal look is needed.
4. NOVI White on Black: For dark backgrounds to ensure maximum legibility and clarity.

The wordmark "novi" in a bold, lowercase, sans-serif font, colored yellow, centered on a white background.The wordmark "novi" in a bold, lowercase, sans-serif font, colored white, centered on a yellow background.The wordmark "novi" in a bold, lowercase, sans-serif font, colored black, centered on a white background.The wordmark "novi" in a bold, lowercase, sans-serif font, colored white, centered on a black background.

Usage

Give the NOVI logo room to breathe. Maintain a clear space of at least 2× the height of the “o” on all sides of the logo. This clear space should remain free of any text, imagery, or graphic elements.

Do not display the NOVI logo smaller than 40px in height for digital use, or 9 mm in height for print, to ensure legibility and clarity across all applications.

novi  Minimum Size 40px

Position

The NOVI logo can appear in the corners or central to the page.

App badge & icon

The NOVI logo and its signature yellow app icon serve as the front door to our product and the core of our brand identity.

The icon features a bold white “n” set within a rounded yellow square, paired with the “health” descriptor to clearly communicate our purpose. Our vibrant yellow palette brings warmth, optimism, and clarity helping NOVI stand out confidently across digital environments.

For compact digital placements such as app icons, mobile home screens, and social media avatars, we use the NOVI app icon. Its simplified form ensures strong recognition and legibility at small sizes while remaining unmistakably NOVI.

Icon app tile

Sabrina Lau now
Hi Andrea, thanks for sharing. Based on the food you submitted, I would suggest adding more protein to help reach your goals.

Minimized logo in app

NOVI icon usage

The NOVI icon is reserved for use only in three specific scenarios.

The NOVI icon in small spaces

The NOVI icon on the app badge

The NOVI icon on performance marketing artwork

Things to avoid

Our logo don'ts

✗ Don't break the clear-space rules

✗ Don't overlay the logo over text

✗ Don't apply effects to the logo

✗ Don't outline the logo

✗ Don't recolor the logo

✗ Don't transform the logo

✗ Don't crop the logo

✗ Don't add any transparency to the logo

Our color

It is the signature of who we are.
It is our warmth, our empathy, and
our intuition. And it should be at
the forefront of our brand, ensuring
every touchpoint feels supportive,
personal, and full of life.

R255 G206 B45
#FFCE2D
C0 M18 Y91 K0
PANTONE 115 U

NOVI Yellow

Primary palette

Our primary palette is built for high-impact communication. It is a precise balance of professional authority and optimistic energy, used to express clarity, confidence, and our commitment to better health.

Deep Navy

R34 G47 B62
#222F3E
C85 M72 Y51 K52

Using NOVI yellow

NOVI Yellow is our signature visual element, making it a constant across all brand touchpoints. Although it is always part of the composition, its role can shift from bold to subtle depending on the need.

The following examples demonstrate how to combine our primary palette to achieve visual variety while maintaining a consistent and recognizable identity.

NOVI yellow with deep navy details and hint of light yellow

Light yellow with deep navy details and hint of NOVI yellow

Deep navy with a hint of NOVI yellow

Being considerate

We recognize the vibrancy of NOVI Yellow, so we are mindful of ensuring it remains engaging without overwhelming the viewer. Always evaluate the specific medium you are designing for to select the most effective color balance.

A Call-to-Action (CTA) tile might lead with NOVI yellow to spark energy and drive immediate action for promotions. A website or mobile interface relies more on navy or sand to provide professional contrast, ensuring a clean and comfortable reading experience.

All out NOVI Yellow

NOVI Longevity Start from \$1,099 (incl. GST)

Invest in yourself today and take the first step towards your longest, healthiest life.

Get started

Light with a touch of NOVI yellow

Dark and slick with a punch of NOVI yellow

Primary pairings

Our three key colour pairings are NOVI yellow and white, NOVI yellow and deep navy, or sand and deep navy. All combinations pass AA contrast compliance and can be used in either proportion.

Secondary palette

To be used deeper into our brand experience. Our secondary palette supports our primary and adds variation to our visuals.

C82 M83 Y46 K50

Using color and logo

Initial impressions of NOVI must lead with our primary palette. This ensures our brand feels immediate, optimistic, and authoritative at every first touchpoint.

While secondary colors add depth to expressive applications, they should always support rather than replace NOVI yellow and deep navy. Use secondary tones sparingly in early brand experiences, reserving more liberal use for deeper editorial content where primary elements remain present to anchor the identity.

Primary palette for initial impression and key touchpoints

Secondary palette in expressive touchpoints as long as the primary palette is visible

First impression

For example, on the website you should see our core colors first.

Secondary impression

The further in you go, the more colors you see.

Combination

The swatches below show which colors can be used in combination when it comes to our logo and typography. Any marked AA or AAA pass the respective accessibility standards. Any marked as NA aren't compliant, but can still be used for marketing materials outside of product or where Alternative Text capability is an option.

AAA — All text sizes, most readable | AA — Normal text, passes standard | AA* — Large text only | NA — Decorative use only. Never for text

Things to avoid

Our color don'ts

❌ Don't use multiple colors in typography

❌ Don't make the logo a different color

❌ Don't use colors that aren't in our palette

❌ Don't use colors that are hard to read

At NOVI, we use a single typeface system: Inter.

Choosing one unified font family ensures visual consistency, clarity, and scalability across all brand touchpoints — from digital interfaces to presentations, marketing materials, and internal communications.

Rather than combining multiple typefaces, we create hierarchy and expression through a controlled range of font weights within the Inter family. This approach allows the brand to remain cohesive while still being flexible and dynamic.

Primary typeface

Inter

One
Typeface.
Multiple
Expressions.

Usage:

- Use weight intentionally.
- Do not introduce additional font families.
- Hierarchy is created through size, spacing, and weight — not by mixing typefaces.

**Inter
Extra Bold**

Our most impactful headline weight. Used for bold, high-emphasis brand statements.

**Inter
Semi Bold**

Our primary headline weight. Used for clear, confident leading messages with controlled emphasis.

**Inter
Regular**

Our core secondary weight. Used for body copy and essential information.

**Inter
Light**

Our subtle secondary weight. Used for supporting or complementary information within the hierarchy.

Hero typography

Designed for high-impact communication. Used to express clarity, confidence, and commitment to better health.

Usage:

- Used for primary headlines and defining brand statements
- Applied to campaign messages and landing page hero sections
- Extra Bold for bold, high-emphasis declarations
- Semi Bold for structured, confident leading headlines
- Not intended for long-form or body content

**Inter
Extra Bold**

**A holistic
weight-loss
journey**

**Inter
Semi Bold**

**Empowering
a billion
healthy years.**

Functional typography

Designed for clarity and readability. Supports structured, informative communication across all touchpoints.

Usage:

- Used for body copy and long-form content
- Inter Regular for essential information and primary body text
- Inter Light for supporting or contextual information
- Applied to descriptions, explanations, and structured content
- Recommended for content-heavy layouts and UI text

Inter
Regular

Today, NOVI Health is a clinically led, integrated practice combining medicine, nutrition, movement, behavior change, and technology. Our multidisciplinary team works closely with individuals and partners to deliver personalized, data-informed care, supported by ongoing monitoring and human guidance.

Inter
Light

We help people build healthier habits that last by integrating clinical treatment with lifestyle interventions and technology.

Hierarchy

We should lead with Inter Extra Bold or Semi Bold for larger typography and use Inter Regular or Light for more focused information and language

**Inter
Extra Bold**

Our headlines look like this

**Inter
Semi Bold**

Secondary headlines go here

**Inter
Regular**

Our lead copy is confident, human, and reassuring. It introduces complex health topics clearly, setting expectations and guiding patients forward with confidence.

Sub-headers are concise and purposeful.

**Inter
Light**

Our main body copy is calm, evidence-based, and easy to understand. It explains medical insights, personalised recommendations, and next steps without overwhelming. We focus on clarity and reassurance — helping people understand their health, track progress over time, and feel supported throughout their care journey.

Tonal flex

Our typographic system flexes from impactful to informative by shifting across weights within Inter.

Impactful

Informative

Things to avoid

Our typography don'ts

❌ Don't use the hero typography in a CTA button

❌ Don't transform the typography

❌ Don't use the hero typography in body copy

❌ Don't set typography too loosely

❌ Don't use functional typography in headlines

❌ Don't use functional typography in all caps

❌ Don't set typography too tightly

❌ Don't set type in multiple color combinations

Tone of voice:

How we look

When we use photography, we showcase the humanity of healthcare – in both lifestyle and in care.

That's why our photography offers a window into lives defined by connection and hope. When we show our world, we always show it in a neutral warm and positive light.

Warmer imagery

Our world is always
warm and positive.

A photograph of two women in a modern, bright lounge. One woman, wearing a white sleeveless shirt and dark pants, is seated and smiling. The other woman, wearing a dark shirt and white pants, is seated opposite her, gesturing with her hands. The setting includes wooden tables, chairs, and large potted plants.

Lifestyle

A photograph of a woman with dark hair, wearing a white blazer with gold buttons and beige trousers, sitting in a wooden chair. She is smiling and looking towards the camera. The background features a wall with framed abstract art.

Medical

A photograph of a man in a black t-shirt and black shorts, performing a bicep curl with a dumbbell in a gym. He is leaning forward, and the background shows a rack of various dumbbells.

Fitness

Lifestyle photography

NOVI Health sees the warmer side of wellbeing. Our visual style is defined by soft, neutral tones and natural light, reflecting a supportive and optimistic approach to care. We move away from the clinical and the cold, creating a world where healthcare feels personal, approachable, and deeply empowering.

Our imagery celebrates genuine human connection. We capture real moments of progress, confidence, and quiet joy—focusing on the subtle emotions that define a healthy life. Whether it is a shared laugh between generations or a quiet moment of reflection, our photography remains uplifting and aspirational while staying grounded in reality.

Every frame tells a story of hope. When selecting imagery, we feature individuals across all life stages, representing everyday health journeys with honesty and dignity. Our environments are sun-drenched and calm, ensuring that every touchpoint with NOVI Health feels like a warm, reassuring invitation to a better tomorrow.

Lifestyle principles

Big on Connection

Our lens focuses on the human side of health. This means celebrating real relationships and the supportive bonds that define our everyday lives.

Big on Hope

We capture individuals with a gentle, resilient edge. Our imagery is always rooted in real-life progress rather than clinical perfection, showing the quiet confidence of a journey well-traveled.

Big on Warmth

Whether it's through natural styling, soft lighting, or lived-in settings, we ensure that a sense of comfort and optimism is always in full bloom.

Medical photography

NOVI Health presents medical expertise with an approachable warmth. Our clinical imagery moves away from the cold, sterile visuals of traditional healthcare in favor of warm neutrals and clean, professional environments. This creates a space that feels both technically proficient and deeply reassuring.

The focus remains on the people behind the expertise. Whether capturing our team in their workspace or highlighting physical milestones, we prioritize confident, open body language and genuine smiles. We show our providers and patients not as clinical subjects, but as partners on a journey of progress and empowerment.

Professional clarity meets a hopeful atmosphere. Every shot is composed to feel modern and high-quality, utilizing natural light and soft textures to bridge the gap between medical excellence and the comforting feel of real life.

Medical principles

Prioritize Connection

Our lens focuses on the human side of medicine. By capturing approachable experts in authentic, professional settings, we reflect the supportive bond between provider and patient.

Inspire Confidence

We celebrate moments of strength and expertise. By highlighting real progress and professional dedication with honesty and dignity, we inspire a positive belief in the health journey.

Embrace Warmth

We replace clinical coldness with comfort. Using a warm-spectrum palette, earth tones, and soft lighting, we ensure our medical environments feel like a safe, welcoming sanctuary.

Fitness photography

NOVI Health captures the energetic side of progress. Our fitness imagery avoids clinical detachment, focusing instead on natural movement and balanced tones that reflect a sustainable approach to wellbeing. Using soft sunlight and authentic settings, we create a visual narrative that feels grounded, active, and deeply personal.

Our focus is on the power of the human spirit. We capture real moments of effort and achievement, from focused training sessions to the small victories of daily movement. By prioritizing determined expressions and confident body language, we highlight the resilience and grit behind every healthy lifestyle.

Relatable strength through an optimistic lens. We select imagery that features individuals across diverse fitness levels and life stages, representing real health journeys with honesty and dignity. Every frame should feel accessible and high-quality, ensuring fitness is seen as a positive, sun-drenched invitation to lifelong health.

Fitness principles

Natural Movement

Our lens focuses on the natural form of exercise. By capturing people running, stretching, and building strength in authentic environments, we reflect the active reality of our clients' lives.

The Spirit of Resilience

We celebrate the effort behind the outcome. By highlighting focused determination and the quiet confidence of physical progress, we inspire a positive belief in individual potential.

Approachable Energy

We avoid extreme fitness ideals, choosing instead a sense of energy that feels within reach. Warm tones and natural light ensure every setting feels welcoming and grounded in real life.

The NOVI glow

Our photography is treated to bring warmth and optimism to every frame, ensuring our visual world remains hopeful and grounded. Use this three-step process to add a layer of brand ownability to our imagery.

Step 1:

Start with a photo of our people. Select imagery that captures genuine human connection and the diverse reality of everyday health journeys.

Step 2:

Apply Color Balance to establish a warm-spectrum palette. Shift tones toward golden and neutral undertones to remove clinical "coolness" and create a sun-drenched atmosphere.

Step 3:

Adjust Brightness and Contrast for natural, soft lighting. Refine the levels to ensure the light feels organic and soothing, reflecting a positive and reassuring outlook on wellbeing.

Things to avoid

Our photography don'ts

❌ Don't use photography that feels clinical

❌ Don't use photography that feels cold

❌ Don't use photography that doesn't connect

❌ Don't over-saturate the photography

❌ Don't use pixellated images

❌ Don't type over busy photography

❌ Don't use generic stock photography

❌ Don't use photography that looks Ai generated

Visual application

Ads

Visual treatment and layout

1. **Brand Signature:** Always feature the NOVI Health logo. It must be clearly visible as our primary anchor of authority.
2. **Imagery:** Use the designated image area for photography that aligns with our warm, optimistic visual direction.
3. **Headlines:** Keep main text bold and prominent to establish immediate attention and impact.
4. **Body Copy:** Support the headline with refined, smaller typography to provide detail without clutter.
5. **Expert Attribution:** Include the doctor's name and title where relevant to reinforce our clinical credibility.
6. **Call to Action:** Ensure the CTA button is high-contrast and unmistakable to guide the user's next step.

Ads

Layout variations

Our flexible grid system allows for multiple compositional arrangements to accommodate varying imagery and copy lengths. These variations ensure that NOVI ads remain recognizable across all platforms while providing the creative freedom to prioritize different message types.

- **Compositional Flexibility:** Choose a layout that complements the focal point of your imagery, ensuring text is placed in "quiet" areas for maximum impact.
- **Content Hierarchy:** Adapt the scale and positioning of elements based on whether the ad is image-led (brand awareness) or copy-led (educational/informative).
- **Consistent Anchoring:** While element positions may shift, the relationship between the logo, headline, and CTA remains structured to maintain a cohesive brand feel.
- **Visual Pacing:** Use these variations to create a dynamic campaign look, preventing visual fatigue when multiple ads are seen in sequence.

eDM

Visual treatment and layout (regular)

1. Hero Masthead: Lead with the NOVI logo, social proof, and a high-impact hero image to establish immediate trust and warmth.
2. Primary Messaging: Use bold headlines and concise body copy to set the narrative tone and purpose of the communication.
3. Editorial Modules: Organize content into clear blocks featuring "reading time" indicators, titles, and dedicated CTA buttons.
4. Service Spotlight: Utilize full-width sections to highlight specific NOVI health programs or clinical expertise.
5. Product Marketplace: Showcase curated items in a clean grid layout with legible pricing and direct "Purchase" triggers.
6. What's On This Week: Highlight the latest social updates and upcoming events to bridge the gap between email and our active community platforms.

Social media

Visual treatment and layout (feed/reels cover)

1. Content Pillar Name: Anchor the post by placing the pillar category at the top center. This provides immediate context for the viewer.
2. Narrative Imagery: Utilize the central focal area for high-quality, authentic photography that reflects our warm and optimistic visual direction.
3. Informative Headlines: Position the main messaging at the clear area to ensure high visibility. Headlines should be bold, clear, and informative to capture attention during the scroll.

Social media

Layout variations (feed/reels cover)

Our flexible grid system allows for multiple compositional arrangements to accommodate varying imagery and copy lengths. These variations ensure that NOVI ads remain recognizable across all platforms while providing the creative freedom to prioritize different message types.

- **Compositional Flexibility:** Choose a layout that complements the focal point of your imagery, ensuring text is placed in "quiet" areas for maximum impact.
- **Content Hierarchy:** Adapt the scale and positioning of elements based on whether the ad is image-led (brand awareness) or copy-led (educational/informative).
- **Consistent Anchoring:** While element positions may shift, the relationship between the logo, headline, and CTA remains structured to maintain a cohesive brand feel.
- **Visual Pacing:** Use these variations to create a dynamic campaign look, preventing visual fatigue when multiple ads are seen in sequence.
